

Announcing the new Yancey County School Web Page

Features for parents include:

- View your child's class calendar
- View homework posted by the teacher
- View class announcements and up coming events
- View resource links and files added to the teacher's webpage

Access these features by clicking "Parent Registration" on the home page of your child's school. If you have children in more than one school in our system, you can register them all at one site. In order to register your students, you will need each child's NCWise number and the birthday in this format 00/00/0000. (Students know the NCWise number as their lunch number.)

The following are the web addresses for each school:
